Tony -

This is a program that has been initiated by the Mayor, who is allocating \$1.3M to each district to help house the homeless. This study is being done only on City owned properties at this time - the (other option) you are writing about has yet to be fully released, but if a property owner wishes to allow that property to be used for overnight housing and overseen by the City, that is an option and I think they are now looking at some sort of compensation.

John & All; Is this the "Park Safe" overnight only parking program that was discussed at our annual meeting that is meant to be strictly voluntary by the property owners?? Although I hate the idea, it's being discussed as if it will be approved encampments. Did I misunderstand? T

FYI - -

In case you do not know, there is a current study being proposed to use the Parking Lot, within our BID off of Ventura Blvd., as a temporary homeless shelter. They will conducting a \*feasibility study\* to determine if it will work.
